

KUMQUAT Label Head SWITZERLAND

ONDREJ is an international **DJ & head of KUMQUAT Records**, the Zurich-based independent label releasing on vinyl and digital. KUMQUAT has earned recognition for releases by Franco Cinelli, Echonomist, Alexis Cabrera, Mike Shannon, Brendon Moeller, Barem, Khainz, D-Nox & Beckers, Jorge Savoretti and Exercise One, regularly supported and charted by leading DJs worldwide. In 2008, he released the CD compilation „*On The Decks With DJ Ondrej*“ on Plusquam Records.

Born in Prague and raised in Switzerland, Ondrej came of age during Zurich's first techno wave in the 1990s. That urban diversity still informs his approach: precision, tension-building mixing and meticulous sound research. His refined, one-of-a-kind sets travel from atmospheric depth to hypnotic drive and from deep to high-energy, threaded with unreleased, forward-looking house and techno.

He has shared stages with Laurent Garnier, D-Nox & Beckers, Pig&Dan, The Hacker, Marcel Dettmann, Steffi, Lee Van Dowski, Ernesto Ferreyra, Franco Cinelli, Animal Trainer, Gurtz, Kalabrese, Digitaline, Oliver Koletzki, Lutzenkirchen, Oliver Klein, Washerman, Exercise One and more. Highlights include Sónar (Barcelona), Electron Festival (Geneva), Street Parade, Zoom Festival (Zurich), Love Parade (Dortmund), VuuV Festival (Germany), Berghain/Panorama Bar-related showcases, Batofar and La Scène Bastille (Paris), Roxy (Prague), Six d.o.g.s (Athens) and Privilege BA (Buenos Aires) — with a standout moment playing twice in Ushuaia (ARG) at the “End of the World” during a South American tour — alongside wider tours across South America, the Indian Ocean region, Russia, Cuba and Europe.

In Zurich, he held residencies at Rakete (Hive Club) and Bagatelle, is a key figure at Kasheme, and performed at the Rundfunk Festival at the Swiss National Museum, broadcast on Rundfunk FM.

He curated the **KUMQUATGARTEN** event series in Switzerland and the roaming **KUMQUAT Showcase**, and his **KUMQUAT Setblock** radio show ran for years on **GDS.FM**. He was also invited by the **National Electroacoustic Music Laboratory** in **Havana** to present his analog equipment project as a cultural exchange and to support Cuban producers. Beyond music, Ondrej works as a graphic designer and photographer under Ondrej Kolacek Art & Media, collaborating with national and international brands — including Red Bull — on music and sports projects and campaigns.

TECHNICAL RIDER — ONDREJ (2025)

1) Players

- 2–3x Pioneer DJ CDJ-3000 (latest firmware), linked via Pro DJ Link (LAN).

2) Mixer

- Pioneer DJM-V10 or Pioneer DJM-A9 or Allen & Heath Xone:96 in excellent working condition.

All faders, filters, cue, booth and EQ must be fully functional and noise-free. Please avoid unserviced units or substitutes not listed above.

3) Booth Monitoring

- 2x identical active monitors (12" or 15"), e.g., high-quality club wedges or nearfields with adequate SPL.

Independent booth volume control accessible to the DJ (via mixer booth out or dedicated controller). Place monitors to minimise bleed from the main PA and reduce feedback (angled toward DJ's ears).

Notes

All equipment must be in excellent condition, up-to-date firmware, and free from faults/ground hum. No substitutions without prior approval. If any spec cannot be met, notify in advance to arrange alternatives.
